Honors Program in Medical Education
Degree: B.S.M.

Residency

- 1990 - 1993 Christ Hospital, Emergency Medicine, Oak Lawn, IL

Notable Achievements

As director of the Outpatient / Casualty Department for Tenwek Hospital, I was responsible for workflow redesign that resulted in markedly improved patient waiting time, increased primary care nurses' productivity and improved patient and provider satisfaction. This was a volunteer missionary position in Kenya.

As the founder and President of HealthCapable, I lead a company that has developed an approach to health information exchange that has already resulted in significant savings to the state of Illinois Medicaid program. The company that I lead has deployed our solutions in Illinois and Colorado. Four years of research and development are yielding results – we are currently in discussions / negotiations with representatives of large organizations who wish to accomplish health information exchange in Illinois (Department of Healthcare and Family Services), Kentucky, and Arizona. The company has developed significant intellectual property which is subject to trademark or copyright protection and / or is patent-pending.

Personal

Married to Erika Claud, MD, Assistant Professor, University of Chicago
Two children ages 5 and 6

Interests include distance swimming, waterskiing. I completed the Chicago Triathlon in 2004 and the swim from Alcatraz in 2005.
